Easily track & manage your parts inventory with Parts Wizard

Increase parts department efficiency by scanning, posting and printing in a single step.

The integrated Dealertrack DMS Parts Wizard provides a wireless remote scanning device that scans parts and simultaneously posts them to your system. The device will speak to alert you when a part number is not recognized or when an item was already scanned.

Features and benefits:

- Eliminates manual tasks such as checking packing slips, labeling and recording parts.

- Parts detail is automatically loaded and "anytime, anywhere" scanning lets you do more in less time.

- Parts Wizard is completely wireless, and allows for printed reports and posting of receipts.
